POOL EQUIPMENT COMPANY

# MOVEABLE BULKHEAD

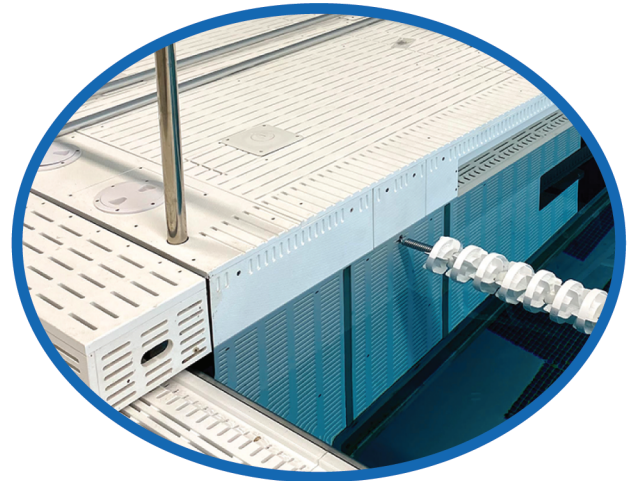

Designed and manufactured to meet NCAA, USA Swimming, and FINA requirements, Paddock's Movable Bulkhead is stable, sturdy, and easy to move making it perfect for every type of aquatic venue.

Moving a bulkhead to vary course length for training and competition or changing the layout of the pool to accommodate various programming is made simple with Paddock's Movable Bulkhead. With an updated design to include a continuous toe ledge and handhold, it also includes flow-through design above and below the water level making it the perfect Bulkhead to include with your Paddock Evacuator® Gutter System.

## FEATURES & BENEFITS

- Type 304L internal stainless steel construction
- Wave quelling flow-through HDPE non-skid grating
