

**PADDOCK**  
POOL EQUIPMENT COMPANY

# HDPE GRATING & GUTTER REPLACEMENT

Paddock's High-Density Polyethylene (HDPE) grating is a marine grade polymer that is highly durable and will give years of service in your pool environment.

This product is used with our gutters, bulkheads, deck drains, deck equipment, etc.

## FEATURES & BENEFITS

- Machined slots allow fast flow of water through grating
- Textured slip-resistant finish provides a non-skid surface
- Low maintenance, easy to clean and eliminates need for repairs
- Will not crack, delaminate, swell or absorb water
- UV stabilized for harsh sun and tough aquatic environments
- Does not react with pool chemicals
- Options for inlaid depth markers are available, eliminating tile depth markers
- Designed to fit most radius gutters or hard to configure corners
- Standard color is grey or white (Grey is recommended for indoor pools only).

*Setting the standard for  
American-made pools  
since 1922*
