

PADDOCK
POOL EQUIPMENT COMPANY

STAINLESS STEEL PRESSURE SAND FILTER VERTICAL & HIGH FLOW

Our vertically oriented pressure sand filters come in single, dual, or triple cell designs providing the most efficient pressure filtration with limited floor space.

Efficient filtration in space saving vertical design is the key with this line of filters. A unique feature offered by Paddock is the domed head design dividing the cells in comparison to a flat plate, which may deflect and damage internal components during operation.

FEATURES & BENEFITS

- All models are NSF® listed and range from 36" to 120" diameter
- One, two, or three cells
- Type 316L Stainless Steel construction suited for durability
- Non-corrosive internals
- Small footprint in equipment room

OPTIONS

- ASME code & labeled filters
- Automatic control
- Single-lever manual linkage
- Type 304L stainless steel construction
- Carbon steel with UL listed lining

*Setting the standard for
American-made pools
since 1922*
